ALEXANDRE LANGA GOLDONI

TECHNICAL SKILLS

- Languages: C#, Python, Java, TypeScript, C
- Frameworks: .NET, ASP.NET Core, Angular, React
- Databases: SQL Server, PostgreSQL, Oracle
- Tools: Git, GitHub, Docker, Pandoc
- Methodologies: Scrum, Kanban, Agile

PROFESSIONAL EXPERIENCE

Expresso São Miguel, Chapecó — *Intern*

MARCH 2026 - PRESENT

- Worked in data engineering, analyzing and tuning performance of large-scale SQL queries after a structural migration.
- Worked across **Java**, **Python**, **Node.js/React**, and **Delphi** ecosystems supporting TMS applications.
- Created technical training on **business rules** and **logistics**, accelerating onboarding and technical maturity of new employees.
- Developed internal Python utilities and automated living API documentation using Markdown and Pandoc.

Concert Technologies, Belo Horizonte — *Junior Software Analyst*

JUNE 2025 - SEPTEMBER 2025

- Developed and maintained web applications and REST APIs using **.NET** and **Angular**.
- Implemented new features and fixed bugs in an automated document generation system.
- Optimized performance and reduced computational costs through **refactoring**, **improving application performance by up to 35%**.
- Participated in Scrum ceremonies and supported requirements analysis and technical improvement proposals.
- Applied collaborative Git/GitHub workflows with standardized commit practices.

Vision System, Chapecó — *Software Development Assistant*

SEPTEMBER 2024 - JUNE 2025

- Developed RESTful APIs using **.NET**, and **Angular** for web interfaces.
- Proposed UX/UI improvements to enhance usability.
- Integrated **PostgreSQL** and **SQL Server**, optimizing Dapper queries by up to 20%.
- Produced technical documentation improving project scalability and reducing rework.
- Performed software testing and stakeholder alignment meetings.

Infogen Sistemas, Chapecó — Trainee Programmer

FEBRUARY 2024 - AUGUST 2024

- Developed small features under supervision focused on business rules.
- Fixed bugs, maintained code, and supported validation activities.

EDUCATION

Unochapecó - Community University of the Chapecó Region — Bachelor of Science in Computer Science

FEBRUARY 2023 - DECEMBER 2027

Studies in data structures, algorithms, databases, networking, AI, systems analysis, and mathematics for computer science. Hands-on experience with C, C++, and JavaScript.

COURSES & ACTIVITIES

Entra21 — Intensive C Programming Course

APRIL 2022 - OCTOBER 2022

Activities: programming logic, OOP, JSON, HTML/CSS, databases, coding best practices, Agile.
Skills: Object-oriented design, exception handling, basic version control, teamwork.

Alura — Git and GitHub: mastering code version control

APRIL 2022 - OCTOBER 2022

Learned Git and GitHub fundamentals, including repository management, branching, merging, conflict resolution, pull requests, commit best practices, and collaborative workflows for effective source code version control.

Techstars — Startup Weekend

MARCH 2025 - PRESENT

Awarded 2nd place for validating a business idea and developing a minimum viable product (MVP); volunteer staff and organizer for innovation.

Wizard by Pearson — English Language Program

APRIL 2013 - DECEMBER 2022

Reading, writing, listening, speaking; technical vocabulary; advanced english (professional written and verbal communication).

LANGUAGES

Portuguese: Native / Proficient

English: Advanced — technical reading, professional written and verbal communication

ADDITIONAL INFORMATION

Additional certifications and courses are available on LinkedIn.

A 5-minute English conversation with Chance Glasco (Infinity Ward co-founder) is available in the portfolio [Minha História na Web](#).
