ALEXANDRE LANGA GOLDONI

Software Developer | Computer Science | .NET • Python • SQL

PROFESSIONAL EXPERIENCE

Expresso São Miguel, Chapecó — *Software Development Intern*

MARCH 2026 - PRESENT

- Analysis and optimization of large-scale SQL queries following a structural migration, identifying and resolving performance bottlenecks.
- Development and maintenance of cross-platform solutions using **Java**, **Python**, **Node.js**, **React**, and **Delphi**, applied to TMS systems.
- Creation of technical training materials on business rules and logistics, accelerating onboarding and improving the technical maturity of new employees.
- **Development of internal utility tools** in Python and automation of live API documentation using Markdown and Pandoc.

Concert Technologies, Belo Horizonte — *Junior Software Analyst*

JUNE 2025 - SEPTEMBER 2025

Development and maintenance of web applications and REST APIs using **.NET** and **Angular**.

- Implementation of new features and bug fixes in an automated document generation system.
- Interface optimization through refactoring, reducing computational cost and achieving **performance gains of up to 35%**.
- Participation in Scrum ceremonies, requirements analysis, and proposals for technical improvements.
- Proficiency in collaborative workflows and Git/GitHub best practices, including concise and standardized commit messages, atomic commits, and frequent commits.

Vision System, Chapecó — *Programming Systems Assistant*

SEPTEMBER 2024 - JUNE 2025

- Development and maintenance of RESTful APIs using **.NET**, integrated with **Angular** applications, contributing to feature development and system issue resolution.
- UX/UI support through usability improvement suggestions.
- Integration with PostgreSQL and SQL Server, optimizing queries with Dapper and achieving **performance gains of up to 20%**.
- Preparation of technical documentation to support project scalability, clarify business rules and questions, and reduce rework.
- Software testing with the development team and participation in stakeholder alignment meetings to ensure adherence to requirements.

Infogen Sistemas, Chapecó — Trainee Programmer

FEBRUARY 2024 - AUGUST 2024

- Development of small features under supervision, with a focus on understanding business rules.
- Bug fixing, code maintenance, and support for user acceptance testing, improving communication with analysts and clients.

EDUCATION

Unochapecó - Universidade Comunitária da Região de Chapecó, Chapecó — Bachelor's Degree in Computer Science

FEBRUARY 2023 - DECEMBER 2027

Studies in data structures, algorithms, databases, networks, artificial intelligence, systems analysis, and calculus for computing. Practical experience with languages such as C, C++, and JavaScript, with an emphasis on logical reasoning, problem-solving, and software development.

UFFS - Universidade Federal da Fronteira Sul, Chapecó — Bachelor's Degree in Administration

AUGUST 2026 - DECEMBER 2032

Studies in management, finance, marketing, accounting, economics, strategy, and organizational behavior. Development of skills in business analysis, planning, decision-making, and resource management.

PROJECTS & ACTIVITIES

Techstars — Startup Weekend

MARCH 2025 - PRESENT

- 2nd place in a startup creation challenge involving market problem validation and MVP development.
- Participation as staff and organizer in volunteer activities related to innovation and entrepreneurship.
